Here is part of our Trial Garden. Hundreds of varieties are evaluated.

Dear Friends:  
Wouldn't it be fun to see every variety and species of bulb described in this book in full bloom? If you could see the most promising new varieties from Holland ranged beside them, wouldn't you feel that you could choose the best in all the world for your garden?

You're cordially invited to visit us during the Spring blooming season, to see just such a display.

Our extensive and costly trial program qualifies us to recommend with authority the varieties which "pass the grade." We feel that this is an invaluable service to you. It assures you that the bulbs you get from Park, are the best varieties available in all the "Floral Kingdom."

So many exceptional new varieties turned up this year, that we had an exciting and difficult time deciding on the list. However, we feel it is the best assortment of Dutch bulbs we've ever offered. We hope you'll like them, too.

Floricordially,

GEO. W. PARK SEED CO.

**TIME OF DELIVERY.** Seeds are shipped immediately. Bulbs with a few exceptions, are ready for delivery in Mid-September, and all hardy varieties can be planted outdoors any time from then until the ground freezes hard. Cultural instructions included with all orders.

Please do not ask us to ship C.O.D. It involves extra expense for you, usually causes delay.

**PARK'S GUARANTEE.** We Guarantee the vitality and purity of Park's Seeds and Bulbs to the full amount of the purchase price. You can have your money back any time within a year, if you are not satisfied with the results. Even with the highest quality seeds and bulbs, success in gardening depends largely upon cultivation, soil, and weather conditions. Therefore, in no case, shall the Geo. W. Park Seed Co. be liable for more than the amount actually paid us for seeds or bulbs.

## The Beauties on Our Front Cover Are Described Below

These bulbs, and those offered throughout this Flower Book, are grown by Holland's finest Horticulturalists, men who take pride in producing the finest varieties. We believe these bulbs to be, not only top size, but of outstanding quality as well.

## GIANT TRUMPET DAFFODILS

**DAFFODILS OR NARCISSI**, are the first of the major garden flowers to bloom. Because so many of the hundreds of varieties of Daffodils so nearly duplicate others, we have chosen to offer a representative variety of each class and color. These have been chosen through study in our trial grounds and close cooperation with several leading Dutch and American growers.

**BEERSHEBA.** A magnificent Giant trumpet type of ivory white. Perfectly flat perianth, long trumpet beautifully flanged at the mouth. 3 for 90c; 5 for \$1.50; 10 for \$2.75; 25 for \$6.05; 50 for \$11.00; 100 for \$22.00.

**BERGEN.** A symphony in graceful proportion, beauty of line, harmony of color. Perfectly formed, slender trumpet flares with a gentle rhythmic curve to its beautifully shirred mouth. Its pleasing ivory-white is enhanced by the pure white perianth which frames it with heavily overlapping, rounded petal perfection. \$1.00 ea.; 3 for \$2.75; 10 for \$8.25.

**BROUGHSHANE.** A glorious pure white of immense size and perfect form. One of the largest Daffodils, it measures 5½" across the heavily overlapped perianth with a trumpet to match 2½" across at its widely flared, reflexed and fluted mouth. Very durable. 75c ea.; 3 for \$1.90; 5 for \$3.15; 10 for \$5.75.

**BURGEMEESTER GOUVERNEUR.** The last of the big yellow trumpets to bloom, it is one of the largest, with immaculate form, perfect symmetry, brilliant color, long-lasting texture. The widely overlapping perianth petals form a rounded 4¾" star of sparkling buttercup-yellow with creamy base overlaid glistening gold. The cup, pure bright yellow throughout, is very straight with a quick roll at its lightly scalloped brim. Sturdy 18" stems point the flowers slightly upfacing above husky, blue-green foliage. 3 for \$1.25; 5 for \$2.05; 10 for \$3.75; 25 for \$8.25.

**GARDEN QUEEN.** Extremely large (5" across) but in such perfect proportions that it is also one of the most graceful. The well rounded perianth is of lovely lemon yellow. The trumpet is deeper buttercup yellow and seems extra long, but is actually 2", with beautifully flared mouth. Heavy textured, long lasting, extra early with exceptional color, grace, size and bearing to win every show. 40c ea.; 3 for \$1.00; 10 for \$3.00.

# FABULOUS NEW BOUQUET TULIPS

Top Size, Top Quality Bulbs Produced by Holland's Finest Growers

## DELIGHTFULLY DIFFERENT CREATIONS

A whole bouquet from every bulb. Four, five and more dazzling tulips from a single stem, instead of the usual one!

The effect they give in beds or borders is outstanding, for even when planted in a single row, they will furnish enough flowers for a really effective showing. When cut, a single plant provides an arrangement. They're fashionable too, for even the older varieties are still so new, they are not generally offered.

### Seven Brand New Bouquets

New clear colors, taller stems (all 28") 3-5 or more uniform flowers make each plant a bouquet, or an important part of the border. All of these New varieties bloom at the same time, uniform in height, uniform in size of flower and plant habit, so they are choice together.

#### Golden Fleece

Rich golden yellow, very uniform with no markings. This color, so rare in Tulips, is presented to perfection in Golden Fleece.

#### (2) Kiss Me Quick. (Bo-Peep)

28" Uniform ivory-white with deep ivory base and yellow anthers. The flowers are perfect, long lasting goblets, quite uniform.

#### (3) Mahogany Prince

Large flowers of uniform deep mahogany. Inside is very brilliant and luminous dark scarlet with dark blue center and black anthers. Until this variety, there has been no really good multiflowered red, but this one has everything.

#### Orpheus

Royal Purple with taffeta appearance. Excellent multiflowered with evenly sized flowers and plenty of them. This is an entirely new color for this class.

#### Royal Ruby

The flowers are a beautiful shade of rich, luminous blood-red throughout. Bluish black center and black anthers heighten the effect. The color is lighter and more brilliant red than Mahogany Prince.

#### Snowbird

Pure white with cream white center and anthers. There is no other marking to mar its purity. Flowers are perfectly formed, uniform in size and plentifully borne.

#### (1) Summer Love

Most entrancing, wanted color in tulips: Dark rose-pink with white center and blue markings. Now in perfect Bouquet type with four and more evenly sized, perfectly shaped flowers branching from each bulb.

## GIANT DOUBLE GLOXINIAS

A well grown Double Gloxinia is one of the most spectacular of house plants, normally having about 20 blooms open, completely crowning the plant, and 20 or 25 additional buds ready to carry on the procession of bloom for several months. The extra petal-age adds a lot of extra color area by comparison with single varieties; making for a far more colorful display.

We have selected from a large lot of plants the finest doubles. These we propagated by an expensive vegetative method to insure you that the first named varieties ever offered would be 100% double, 100% true; the finest Double Gloxinias in the world by Park. Easily grown too.

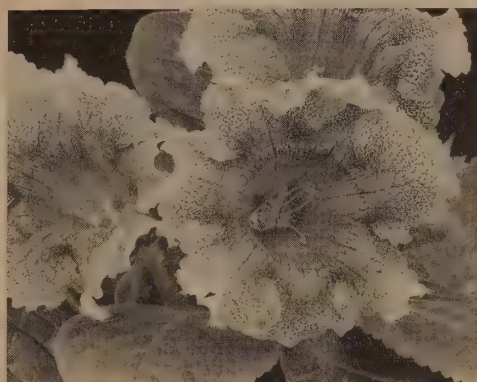

You'll thrill to a brand new effect, elicit the admiration of your friends, for these are, of all Gloxinias, most beautiful.

### Begonias and Gloxinias for Christmas

Start our stored bulbs in September or early October in 6" pots of Sphagnum Moss. Use a South window or greenhouse where a temperature of 70-75 deg. will be maintained. When the plants are growing well, provide extra light. (A fluorescent light or 60 watt bulb 2 ft. from the plant will do), so that the plants have daylight, supplemented by electric light totalling 14-16 hours a day. This day-length keys the plants for blooming.

### SINGLE GLOXINIA BULBS for Christmas Bloom

We have stored a limited quantity of very fine Gloxinia bulbs for shipment in early Fall. These are choice named varieties, but because quantities are small we offer them in MIXTURE ONLY ready for immediate shipment. 3 for \$1.00; 10 for \$3.00; 25 for \$6.50.

A209 Park's "Sure Fire"® Seed Starter Kit

### Controlled Light Makes Seedlings Grow Strong

Seedlings need much higher light intensity than full grown plants. A window often does not give enough light to grow strong seedlings, especially in the sometimes prolonged cloudy and rainy periods of early spring. When too little light is given, tall and spindly plants will result. Scientific studies and our own experiments proved that you can achieve the same ideal light conditions of a greenhouse in your own home by applying artificial light. Simple to use, illustrated instructions included.

A376 Fluorescent Gro-Lamp

### FLUORESCENT GRO-LAMP

Provides artificial sunlight to keep your plants green and blooming without being near the window. Use it with "Sure Fire" Seed Starter Kit, or for just keeping your houseplants beautiful and well displayed. Seedlings grow sturdily to bedding plant size, house plants bloom well with no other light. Transforms any area, basement or room into a greenhouse. Complete directions with each light.
